   It is no question that the organizing of any ARDF Championship is very difficult task which takes a lot of effort of many organizers. Yet still we often see small mistakes which result in bad feelings at the least, breaking the Rules at the most and spoil the overall impressions from the event. To help the future organizers, the report should be created, containing not only complete results and courses maps (already demanded by the Rules) but also detailed event evaluation which would describe the ARDF Rules performing, quality of the courses and equipment, accommodation level and overall arrangement of the event, most visible mistakes and benefits. This report shall be published so that the future organizers can avoid the same mistakes and shall be the condition for receiving of the IARU contribution.
